

TORONTO BOYS CARRIED OFF THE HONORS

In Two of the Firemen's Tournament Races at Martin's Ferry Yesterday Afternoon, and

OWNED THE TOWN LAST NIGHT.

Rain Interfered and Caused Calling Off of Some of the Races. The Bicycle

ROAD RACE WON BY HARRIS

Of Pasco, and Time Prize Went to Smith of Brilliant—The Affair a Big Success.

Yesterday was the closing day of the tournament of the Northeastern Ohio Volunteer Firemen's Association, in Martin's Ferry, the day on which all the races occurred, and much interest was taken in the conclusion of the mammoth affair. The only unpleasant feature of the day was the severe rain which occurred directly after the open-to-the-world horse race, and, while only continuing for a few minutes, was of such severity as to flood the track and compel the judges to call off the following races off. Three thousand people packed the grand stands which had been erected on either side of the track, and on account of the shortage of seats many were compelled to witness the races from the end of the track. Never before in the history of the city was there such a large crowd congregated, and probably will not be again for several years. About 11 o'clock in the morning a boat with a crowd of New Martinsville rosters, fully two hundred strong, with a band and drum corps, arrived in the city, followed shortly by a crowd from Toronto and Wellsburg.

The racing programme commenced at 10 o'clock in the morning, when the ten-mile road race was pulled off with nineteen starters. This was one of the most successful races in connection with the tournament. P. H. Harris, of Pasco, with a handicap of one minute, won first place easily, and was followed by about two hundred yards, by W. C. Kunkle, the crack St. Clairsville rider, who was closely followed by G. S. Smith, of Brilliant, a scratch man, who not only won third place, but also captured the time prize. The following is the way they finished:

Place.	Rider.	Time.
1.	P. H. Harris, Pasco.	1:30
2.	W. C. Kunkle, St. Clairsville.	1:32
3.	G. S. Smith, Brilliant.	1:33
4.	C. McGrawman, Wheeling.	1:34
5.	W. B. Johnson, Wheeling.	1:35
6.	E. B. Salas, Wheeling.	1:36
7.	G. C. Cheffey, Brilliant.	1:37
8.	Clarence Johnson, Bridgeport.	1:38
9.	H. Fredericks, Wheeling.	1:39
10.	Gus Ogle, Coshocton.	1:40

Promptly at 2 o'clock in the afternoon the association races were called, with Judge Hollingsworth, of St. Clairsville, and P. E. Seas, of Orrville, as judges, and W. H. Parr, of Smithfield, as starter. Before the race, Judge Hollingsworth announced that a protest had been filed against the horse race, claiming that it was in one hundred foot sections, and the rules of the association call for fifty foot lengths. Captain Frazier, of the Torontos, stated that they would use fifty foot lengths and consequently were allowed to use their own horse.

Won by "Our Boys."
Our Boys, of Toronto, were the first called out and made an excellent run of twenty-seven and one-half seconds, but with a rather slow connection finished in thirty-one and one-half seconds, the fastest time made in the race open to the members of the association.

The next team called out was the Deluge Hose Company, of Salem. Their run was a little slow and the horse wheeling from the reel caught in the wheels and not being able to get better than an eleven second connection their time was given out as forty-one seconds.

The Coshocton Sporting team was the next to make the run and with slow connections finished in thirty-two and two-fifth seconds.

The Independents, of Salem, made an excellent run and made quick connections, and their time was announced as thirty-two and one-fifth seconds, winning second money.

The one hundred yard foot race which was run in four heats, was the next event of the afternoon. C. W. Alexander, of Bridgeport; William Rogers, of Mauch Chunk, Pa.; John Enright, of Salem; F. K. Knowles, of Salem, and Edward Whitaker, of Salem, qualified, and in the final heat C. W. Alexander won easily over William Rogers, second, and John Enright, third. The trial and final heats were very pretty races and entirely free from any dirty work, which is so frequently employed in foot racing.

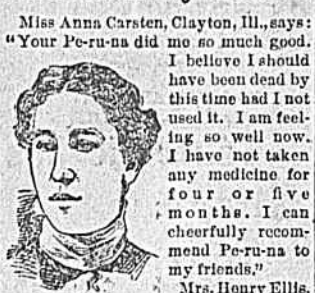

The next event was the Hook and Ladder race, for which there were two entries, the Lectoria Hook and Ladder Company and the Rescue Hook and Ladder Company, of Salem. The former was the first team to run and finished in thirty-two and two-fifth seconds. The Salem company made a much faster run, but the man in climbing the ladder, slipped, which cut down their time considerably, but notwithstanding the accident, the run was straightened out.

Reduction in Wages.
PITTSBURGH, Pa., July 6.—To-day notices were posted in the plate mill of Moorehead Bros. at Sharpburg, announcing that, beginning on Monday next, there would be a 20 per cent reduction of wages throughout the plate mill. Employees of the mill were told that in order to meet competition and continue in operation the cut was necessary. Several of the employees stated yesterday that they would not accept a reduction.

The Big Event.
Next in order was the most important event of the day, the open to the world horse race. For this race there were four entries. Toronto was the first team called out. The boys made a much faster run in this race than they did in the association races, but by a slight fumble on the part of the nozzlemans their time was a second slower than in the first race, finishing in thirty-two and one-fifth seconds.

The Deluge team, of Salem, followed and experienced the same difficulty with the unwinding of the hose as they did in the association race, partially caused by the hose unwinding too rapidly and the brake on the reel not being worked properly. They failed to get any time.

IT IS A PITY SO FEW WOMEN Are Entirely Free From Pelvic Catarrh.

Miss Anna Carsten, Clayton, Ill.

Miss Anna Carsten, Clayton, Ill., says: "My Per-na did me so much good. I believe I should have been dead by this time had I not used it. I am feeling so well now. I have not taken any medicine for four or five months. I can cheerfully recommend Per-na to my friends."

Mrs. Henry Ellis, 592 Scott street, Milwaukee, Wis., says: "I was a most miserable sufferer from falling of the womb, weak ovaries, and leucorrhoea, which caused me to be confined to my bed for a long time, being too weak to bear my own weight even, upon my feet. I was treated by the most reputable physicians in our city. They could do nothing for me. I am most happy to say that in three months after I began taking Per-na I was well—entirely cured without any appliances or support of any kind."

G. A. Froehel, New Portage, O., writes: "My wife has been sick for about five years. In the first place the doctor called it leucorrhoea, and treated it about one year, when it turned to ulceration of the womb; she was then treated for that for two years, when the doctor gave her up. She could not walk for nearly two years. She then tried your Per-na. She has taken three bottles and it did her more good than any other medicine."

A vast multitude of women have did in the association race, partially caused by the hose unwinding too rapidly and the brake on the reel not being worked properly. They failed to get any time.

The Coshocton boys made a fine run, one of the fastest of the afternoon, made their connections and called time, but upon examination of their connection by the judge, the nozzle fell to the ground, constituting a foul and giving them no time. Had their nozzle been put on securely they certainly would have won this race.

The Independents, of Salem, with a good run, also made a slight fumble in their connections and their time was announced as thirty-two and one-fifth, tying with the Torontos team. The judges decided that the two tied teams would run a hub-to-hub race to decide the victors, but before they could get ready for the race the rain commenced and the festivities of the day were discontinued. In this event the judges divided first and second money between the two tied teams, as they were the only ones getting any time.

The consolation hub-to-hub race which was to have been run between the two teams not winning first in either of the other two events, was also called off and the money was awarded to the Deluge team, of Salem, as they were the first to appear upon the grounds prepared for the race before the rain. The 220 yard dash was also called off. Notwithstanding the fact that many of the races were not pulled off all the money that was hung up for prizes was given out, thus demonstrating to the visiting teams that the committee intended to do the square thing all around.

The dance in the evening at the hotel was largely attended, notwithstanding the dampness of the surroundings. In the evening the streets of the city were the scene of much merriment. The Toronto team feeling highly elated over their victory in the association races and the good showing in the open to the world race, simply tore the town wide open. With horns and bands they paraded the streets until a late hour, informing the residents of the city who were not already apprised of the fact, if there were any, that they were the victors of the day. While the crowd was orderly, they made a great deal of noise and had a jolly good time. The other teams, less successful, also joined in the parade.

The affair as a whole far eclipsed any ever given by the association and all the visiting teams will leave the city with the kindest possible feeling for Martin's Ferry. The New Martinsville delegation, which came up by boat, left at 8 o'clock last evening for their homes. The hose and hook and ladder companies will leave for their homes this morning.

THE Firemen's Road Race at Martin's Ferry, was won on a Liberty Bell by Perry Harris, W. C. Kunkle finished second on a Tribune; Carl McGrawman fourth, on a Liberty; Ed. Salas seventh, on a Liberty. Harris used the same wheel that he mashed in the park races, after having it straightened out. These wheels are sold only by Jason C. Stamp, Peabody building.

Drowned in a Tragic Manner.
PITTSBURGH, Pa., July 6.—Two boys were drowned to-day in a tragic manner. Their names are Chester McCarty, aged eight, and Reuben Hester, aged nine. The boys were on an improvised raft watching men dragging the river for the body of Clarence Lutz, who was drowned yesterday. When Lutz's body was recovered and taken ashore the boys, in their haste to see the body, capsized their raft and both went down in fifteen feet of water. Their bodies were soon recovered, and the three corpses were taken to the morgue together.

Town Destroyed by Cyclone.
MARSHALLTOWN, Iowa, July 6.—It is reported that a cyclone and cloud-burst to-night destroyed the village of Steamboat Rock. The report is partly verified by the fact that the lower river rose five feet here within an hour.

DR. HENNIG'S Cough Syrup is the only remedy that cures Whooping Cough. 25c and 50c.

found Per-na an indispensable remedy. It meets all their irregularities, critical periods, and peculiar weaknesses.

Mrs. Anne Randall, Caro, Mich., says: "This letter leaves me well. I do sincerely think, by reason of your good advice and great medicine, Per-na. It has brought back my health to me in my older days. I am now a new woman, physically. I think Per-na the best medicine in the market."

Women are even more subject to catarrh than men. The chief cause is the delicacy of her organism, as compared to man. This explains why, in part at least, so few women are entirely free from catarrh. Catarrh of the pelvic organs is generally called female disease.

Miss Sadie Martindale, the prominent young actress, writes to Dr. Hartman in regard to Per-na, as follows: "I give you great pleasure to recommend Per-na to members of my profession. I have found it most helpful. I consider Per-na of especial benefit to women and particularly recommend it to them. My dressing table is never without it."

Everywhere the people, especially the women, are praising Per-na as a remedy for all forms of catarrhal difficulties. Send for free catarrh book. Address Dr. Hartman, Columbus, O.

Society.

The first week of July was an interesting one for society, but with it closes the season of invitation affairs, and the summer exodus is on. The contest between the Wheeling and Highland golf clubs at Woodsdale, the Cotillion at the Park casino, the Alex. Laughlin Rhodes party and the New Castle Glee Society concert covered the special attractions, while numerous private parties on the Fourth filled in the week for all. Since then mountain and seashore are being daily sought by Wheeling society. Lawn tennis and golf contests are in talk for members of the clubs at home, but none are regularly scheduled.

The largest event of the week occurred at Woodsdale Wednesday afternoon, when the first inter-club championship match between the Wheeling and Highland golf clubs came off. All society possibly able or privileged to be present, was on hand, and enthusiasm throughout ran high. The pennant was won by the Wheeling club, whose representatives were Messrs. Charles F. Paxton, John H. Storer, E. A. Hildreth, A. S. Paul, D. W. Howard, Henry K. L. Dalzell. The Highland club was represented by Mr. Clinton Campbell, who defeated his Wheeling opponent, and Messrs. James B. Toney, T. Harvey Pollock, C. W. Bates, Alex. R. Campbell and W. C. Bates, all recognized on the links as players of merit. The victory was a brilliant one. The club house hospitalities were graciously dispensed by Mrs. Maude Eccles Heskell. Robert J. Reed, Mrs. Bernice S. McLeary, Mrs. Alfred Paul, Mrs. Benjamin Hildreth, Miss Florence Ott, Miss Edna Lewis and Miss Mary McMeekin. The next contest at the Highland links is eagerly anticipated.

Mr. and Mrs. Oliver T. Rhodes entertained the young friends of their son, Alex. Laughlin Rhodes, with a fireworks party Wednesday evening, on the handsome river-front lawn of their residence on North Main street. Refreshments were served at 10:30.

The last of the scheduled cotillions came off Tuesday evening at the Park casino under flattering conditions. Another summer set will be enthusiastically taken advantage of, and it is hoped Professor Delbrugge will arrange it.

The event of to-day comes off at the Leatherwood tennis court. Last Saturday the championship game arranged between Mr. Nelson C. Hubbard and Miss Virginia Burt, and Mr. James W. Ewing and Miss Laura Crangle Dalzell was played with Mr. Hubbard and Miss Burt winning. For to-day the winners have been challenged by Mr. Wilbur Dwyer and Miss Virginia Moffat, and the greatest interest and enthusiasm centres around the outcome, as the players rank as the best hereabouts. Another feature of the afternoon will be the game between Messrs. Hubbard Boyd and Messrs. Nelson C. Hubbard and Henry M. Russell, Jr.

Special music has been arranged for at St. Matthew's P. E. church to-morrow morning. In the quartet will be Mrs. Nellie Sweeney Palmer and Mrs. Alice Lincoln Dean, both well known in Musical Wheeling. Mrs. Dean is at present the house guest of her parents, Mr. and Mrs. A. S. Lincoln, on South Front street, Island, and Mrs. Palmer is home with her mother, Mrs. Andrew J. Sweeney, of North Main street, for the summer, from Richmond, where she has been for two years a factor in the musical life of that city.

Judge J. T. Hucus and family will spend the summer at Mt. Lake Park.

Mrs. William B. McMeekin and daughter, Dorothy, left Tuesday for Oakland, where they will spend the remainder of the heated season.

Miss Genevieve Russell and Miss Colie Duncan, of Clarkburg, the house guests of Dr. and Mrs. A. P. Husted, at the Severn, were the honor guests at several delightful functions of the week. They became the guests of Dr. and Mrs. Husted complimentary to the celebration of the fifteenth anniversary of the wedding of their host and hostess, which event was celebrated with a banquet Monday evening, June 25.

Mrs. Maude Eccles Heskell and Miss Laura Crangle Dalzell, of North Chapline street, leave next week for a lengthy lake trip.

Miss Grace Hoge, of Pleasant Valley, will spend the summer at Plymouth, Mass.

On Monday evening, Mrs. Jason C. Stamp and Mrs. Charles Aul were hostesses for a yachting party at the Ohio.

Among the guests of the occasion were Mrs. Emma Wirth and Miss Katherine Kleinfelder, of Cincinnati.

Miss Isabella Jepson left yesterday for Mountain Lake Park, where she is the guest of Miss Mary McLean.

Miss Martha Ott will spend the summer at Hagerstown, Md.

Mrs. John K. List, of North Main street, is with her mother, Mrs. Glass, at the Luray, Atlantic City.

Mrs. Huihnen Quarrier, of Leatherwood, is in the east.

Mrs. B. B. Dovener will spend the summer at Mt. Lake Park.

Mrs. Marion Harper is entertaining a house party at her country home in Pleasant Valley. Among the guests are Mr. and Mrs. C. F. Williams, formerly Miss Laura Hall, of this city, and their children, and Mrs. J. J. Glover, of Washington City.

Mrs. Oliver T. Rhodes and son, Alex. Laughlin Rhodes, of North Main street, are at the Traymore, Atlantic City.

Mrs. Maggie Pendleton Hughes, of Richmond, is the guest of her sister, Mrs. Andrew U. Wilson, at Leatherwood.

Mrs. George K. Wheat and daughter, Miss Frances Wheat, have gone to Atlantic City to witness the performance of Mr. Lawrence Wheat, who takes the part of Reggie in "Mammy" "Awkins."

The New Castle Glee Society drew two interested audiences to the Park Casino last Monday. The ensemble singing was enjoyable and real treats were enjoyed through the work of Mr. David Lloyd, tenor, and Mr. John Tarnalis, tenor, basso.

Dr. and Mrs. Frank LeMayne Hupp and daughter, Elizabeth, and Mrs. Joseph Speldel and daughter, Mrs. Edward B. Frinzhim, left for Lake George last Monday evening. Their cottage is at Hult's Landings.

Miss Gusie Henne, daughter of Mr. and Mrs. William H. Hearne, of the Island, who was hurt by being thrown from a carriage, is improving, to the delight of the many friends of the family.

BELLAIRE HAPPENINGS.

Matters of Interest in the Metropolis of Belmont County.

Quite a crowd of folks from here attended the firemen's tournament at Martin's Ferry yesterday afternoon, and nearly all of them were completely soaked by the heavy rainfall. All the available space in the open grand stands was occupied, and it was a delightful afternoon. The ladies were adorned with the lightest fabrics befitting the season; a few very timid ones went away before the sudden downpour, but the great majority remained, and were drenched from head to feet. It was an unfortunate ending of a very pleasant and entertaining tournament.

Mrs. Sarah J. Strong, mother of Thomas Strong, manager of the Edgewater Enamel Works, died yesterday afternoon after a long illness. The husband and five grown children survive the wife and mother. The funeral will take place to-morrow.

Frank Blaser, a fourteen-year-old boy, living in the town of town, had his hand so badly torn by a giant cracker on the Fourth that it had to be amputated yesterday to keep blood poisoning from setting in.

Judge J. W. Hollingsworth, Auditor Aldridge and Assistant A. W. Beatty and Clerk L. E. Emerson drove down from St. Clairsville yesterday to the firemen's tournament at Martin's Ferry.

Rev. J. M. Slutz, residing elder for this district, held quarterly services in the First M. E. church Thursday evening, and spent the evening calling on friends in this city.

Two cars on the electric line on this side were burned out yesterday afternoon by lightning. On one of the cars the dynamo was torn and burned to uselessness.

Walter Fletcher, the young man hurt at St. Clairsville on the Fourth, will be brought here to-day or Monday. His brother Will has been staying with him.

The Kansas City convention did not enthrall the Democrats here a particle, but most of them will swallow the 16 to 1 and go it blind as to results.

James Harrison, who has lived at St. Clairsville for a number of years, having secured employment here, will move his family to this city.

George C. Norton, the rural mail carrier, is laid up quite sick. His brother, Harry, who is the substitute, is filling the place.

Squire John W. Morrell and wife are home from a brief pleasure trip to Cleveland.

Mayor Freeze had no business in his court yesterday, the only blank day this week.

Health Officer Boone reports only four deaths in the city during the month of June.

Senator Charles M. Hoge, of Cadiz, came in last night.

BRIDGEPORT HAPPENINGS.

Events of a Day in the Town at the End of the Bridge.

The reunion of the Brannum family at the old homestead on Wednesday was a pleasant occasion to all who were present. Mother Brannum and her three daughters and three sons and families were present for the first time in many years.

Mr. and Mrs. P. D. Brannum and their son and daughter were guests of Mr. and Mrs. F. C. Robinson this week.

Mrs. R. T. Howell is in Zanesville, called by the illness of her mother, Mrs. Worthington.

Bridgeport was liberally represented in the crowd at Martin's Ferry, Friday. Mr. and Mrs. Wilbur Branch have returned from Wellville.

Mr. and Mrs. Oswald Shick have returned from Ravenna.

Edward Keller, the county jailer, was in town yesterday.

CASTORIA.

COMING! COMING!

DR. ARTHUR C. DELLISSPAR,

The Great Magnetic Healer, Osteopath and Clairvoyant,

Will Arrive in the City of Bridgeport, Ohio, Saturday, July 14, 1900, to Open a Permanent Magnetic Osteopath Institute for the Curing of All Chronic Diseases, Such as Rheumatism, Paralysis, Deafness, Blindness, St. Vitus' Dance, Insanity, Tumors, Cancers, Liver, Kidney, Stomach, Blood and All Nervous Disorders of the Human System.

The Magnetic and Osteopath Institute Will Be Open to the Public Monday, July 16, 1900, in the Heintzel Block, Rooms 8 and 9. Office Hours from 9 a. m. to 9 p. m., Week Days. Sunday Hours, 9 to 11 a. m., 1 to 5 p. m., and 7 to 9 p. m.

Examination and Consultation Free to All.

Your diseases and their causes will be correctly and minutely diagnosed by him and pointed out to you, without asking a single question. If you cannot be cured he will frankly tell you so. Remember, after you receive the examination you are under no obligation to take treatment unless you wish to do so. Come and see for yourselves. Take no one's word. Investigate and believe your own eyes—be guided by your own reason.

Dr. Arthur C. Dellisspar, the Phenomenal Magnetic Healer, who has created a tremendous excitement in every city he visits, his science of curing disease of all kinds, the achievements of his wonderful method, has been so astonishing that it has revolutionized the art to cure diseases without the aid of medicines or drugs. Science crowns Dr. Arthur C. Dellisspar the Founder as Humanity's Greatest Benefactor.

Tested by 12,000 Afflicted and Found Infallible.

Dr. Arthur C. Dellisspar, through the new science of Magnetic Healing and Osteopathy, will make Rheumatic and Paralytic Cripples walk without their canes and crutches within a short time. Through this same power the Blind will be made to see and the Deaf to hear. He performs phenomenal cures, which have astonished the civilized world. He sets the serious to thinking and convinces the doubtful. No matter what the disease, how bad, how long standing, or hopeless the case, if they are amenable to cure they will **ARISE AND WALK.**

Intense Interest Prevails.

Intense interest prevails all over the cities and counties and throughout the United States, caused by the wonderful cures being performed by this Great Magnetic Healer, who uses no drugs in his method of Healing the Sick. He cures Rheumatism, Paralysis, St. Vitus' Dance, Insanity, Tumors, Cancers, Liver, Kidney, Stomach, Blood and All Nervous Disorders of the Human System. The results are plainly apparent to all. Some of the very worst cases imaginable have been treated by this Magnetic Healer and nearly always with the same results—a complete cure.

Judges, Bankers, Professional Men and those in the more humble walks of life expect to regard this wonderful Healer something extraordinary. In a few treatments canes and crutches can be seen left in his office by the happy mortals who have once more been made whole. The canes and crutches from the most costly and crude, present a sight that is most rare indeed, and they tell more eloquently than words can of this **GREAT HEALER'S POWER OVER DISEASES.**

Great pains have been taken by the newspapers to investigate the merits of this **GREAT MAGNETIC HEALER'S** remarkable method of healing the sick without medicine, and it is the opinion of the people in the large cities which he has visited that they have never seen anything equal to it before. It is no so-called Spasmodic Cure-all, which may be heard of one day and forgotten the next, but in his hands it seems to be a science as exact as anything can be. Its practice has been applied for many years, and each succeeding year adds to its method and power.

Such diseases as Consumption in its greater stage, Total Deafness and Total Blindness, where the respective organs are destroyed, are not helped by him. But there is scarcely another malady known to the Medical Science that he cannot relieve or permanently cure. This is being proven from day to day by the cures he performs. He cures the most stubborn cases of Rheumatism, St. Vitus' Dance, Insanity, Tumors, Cancers, Liver, Kidney, Stomach, Blood and All Nervous Disorders of the Human System. He cures the most stubborn cases of Rheumatism, St. Vitus' Dance, Insanity, Tumors, Cancers, Liver, Kidney, Stomach, Blood and All Nervous Disorders of the Human System. He cures the most stubborn cases of Rheumatism, St. Vitus' Dance, Insanity, Tumors, Cancers, Liver, Kidney, Stomach, Blood and All Nervous Disorders of the Human System.

WHAT CAUSES TUMORS AND CANCERS?

Clogged Kidneys. They poison the blood, become infected with disease, break down the entire system and bring on Bright's Disease, Rheumatism, Paralysis or Epilepsy.

You know what happens to your sewer when it becomes clogged, don't you? Do you know what happens to the Human System when the Kidneys become clogged? They are unable to throw out the impurities from the blood and become infected with poisons, they decay, fall apart and pass out in the urine; the blood, undrained, carries the poison all through the system, and if not checked death follows. The Kidneys are the sewers of the Human System. When your Kidneys are not doing their work, some of the symptoms that prove it to you are pain, or dull ache in the back, excess of uric acid, gravel, rheumatic pains, sediment in the urine, scanty supply, irritation in passing it, obliged to urinate during the day and to get up many times during the night to empty the bladder, sleeplessness, nervous, irritability, dizziness, irregular heart, breathlessness, sallow and unhealthy complexion, puffiness or dark circles under the eyes, sometimes the feet, limbs or body bloated, loss of ambition, weakness and general debility.

Perhaps you are in doubt about your Kidneys and want to find out. Here's a simple test. Take from your urine passed when you arise in the morning about four ounces; place it in a glass bottle and let it stand for twenty-four hours. If, upon examination, you find any sediment or sediment, if it is milky or cloudy, or if particles float about in it, disease has bitten a foothold on your kidneys and nature is calling for help. **WRITE OR CALL AT THE MAGNETIC AND OSTEOPATH INSTITUTE, IN THE HEINZEL BLOCK, ROOMS 8 AND 9, BRIDGEPORT, OHIO.**

Osteopathy Cures Without the Use of Medicine.

This new science of healing has received special recognition from the legislatures of a number of states and is meeting with a degree of favor at the hands of the general public, never equaled by any other method. It has received the endorsement of the most intelligent classes in the communities by mechanical manipulation of the various parts of the body, the scientific use of the hands, based upon thorough knowledge of the structure and function of the body. Its purpose is to adjust the machinery of the body, restore the integrity of the mechanism, set it in motion and harmonize its forces so that nature may perform her normal functions whereby disease is eradicated and health restored.

The human body is an epitome in nature of all mechanisms, hydraulics, architecture and machinery of every kind. It being the embodiment of machinery, is therefore subject to mechanical defect and likewise must have mechanical adjustment.

Nowhere does this system show its superiority more conspicuously than in the large class of disorders which afflict women alone. No suffering. No exposure. Here positive benefits are promptly shown and accomplished in a very short time.

Osteopathy

Works and depends upon the laws of nature, and if the system still contains any recuperative power upon which a process of cure can be based. Osteopathy can surely develop it. Osteopathy is a method of treating diseases by mechanical manipulation of the various parts of the body, the scientific use of the hands, based upon thorough knowledge of the structure and function of the body. Its purpose is to adjust the machinery of the body, restore the integrity of the mechanism, set it in motion and harmonize its forces so that nature may perform her normal functions whereby disease is eradicated and health restored.

Osteopathy Contends.

1. That health is natural and death between birth and old age is unnatural.
2. That all bodily disorders are the result of mechanical obstruction to the free circulation of the vital fluids and forces. Under this law, when the parts of the human organism are in proper adjustment, health is the result.
3. That order is the great law of life. Disorder is disease and death. In the maintenance of the physical order necessary to the normal working of the animal machinery, the bones are of paramount importance.
4. That the human body is an absolutely perfect machine in itself and that the closer we come to nature the more intelligently we shall be able to make use of the fundamental principles of life and health.
5. That the body contains laboratories capable of manufacturing the various secretions and remedies—essential to its well being.
6. That drugs are foreign and extraneous to the physical organism.
